Strengthen the level of internal governance, set up a risk management committee, and further standardize purchasing. Improve and perfect the operating mechanism of the council and the unique function of the four professional advisory committees.

We became stronger when we were faced with difficult times. In 2022, we have withstood multiple ordeal and experiences. We have reaped the glory after the struggle and won the courage to move forward. We know that only by keeping the integrity and innovation can we achieve stability and long-term progress, and only by cultivating the present can we win the future. We will abide by the original intention of the 160-year Red Cross Movement, continuing the gene and character of CRCF members who pursue excellence and strive for success in the past generations, strive to create a brand-new performance of the era and youth without regrets.

The report of the 20th National Congress of the Communist Party of China clearly stated that the central task of the Communist Party of China from now on is to unite and lead the people of all ethnic groups in the country to build a powerful modern socialist country in an all-round way. This provides a clear background and direction for the development of public welfare and charity, and provides a new action guide. Under the strong leadership of the Red Cross Society of China, we deeply comprehend the decisive significance of the "two establishments", fully implement Xi Jinping's Thought on Socialism with Chinese Characteristics for a New era, carry forward the great spirit of party growth, Strengthen the construction of the talent team, in order to comprehensively promote the digitalization of management, service specialization, project branding, platform internationalization and leap forward, fully integrate into the process of Chinese-style modernization, and strive to write a new chapter in the high-quality development of Chinese-style modern humanitarian and public welfare undertakings.

“心拯救”暨急性心肌梗死急救一包药项目

“Rescue the Heart” - A Packet of Medicine Program for Acute Myocardial Infarction

中国红十字基金会与阿斯利康中国于 2015 年 4 月共同发起“心拯救”急性心肌梗死急救一包药公益捐赠项目（简称“急救一包药”），通过全国具备急性心梗接诊和救治能力的医院 / 急救指挥中心，免费向急性心梗患者捐赠双联抗血小板药物（替格瑞洛 180mg+ 阿司匹林 300mg）。2017 年，针对急性心梗合并高脂血症（适应症）的患者，增加瑞舒伐他汀（20mg）捐赠。2018 年，该项目荣获国家民政部颁发的第十届“中华慈善奖”。2020 年，为最大限度降低急性心梗患者 PCI 术后不良心脏事件的发生风险，强化其住院期间抗血小板治疗，项目在“急救一包药”的基础上，探索“住院一包药”模式，将项目资助周期延长至患者住院期。

急性心梗救治的关键是要尽早启动双抗治疗，最大限度缩短早期救治时间。急救一包药项目优化急性心梗患者的救治流程，真正做到把“患者等药”变成“药等患者”，使患者在第一时间服用药物，大大缩短宝贵的救治时间。

2022 年 2 月，因项目所涉及的捐赠药品在医院内已基本可及，急救一包药项目停止药品援助。截至 2022 年 1 月，急救一包药项目（急救板块 + 住院板块）累计通过全国 5383 家医院，惠及心梗患者 273 万人次，覆盖项目医生近 25 万人次。

2022 年 4 月，为助力疫情防控工作，急救一包药项目向上海、江苏等地发放防疫盒，直接受益人口为 1800 人。

In April 2015, the Chinese Red Cross Foundation and AstraZeneca China jointly launched the “Rescue the Heart” - A Packet of Medicine Program for Acute Myocardial Infarction (referred to as the “Rescue the Heart with a Packet of Medicine”), to donate dual antiplatelet medicine (ticagrelor 180mg + aspirin 300mg) to patients with acute myocardial infarction (AMI) for free through hospitals/emergency command centers with the capacity to receive and treat acute myocardial infarction throughout the country. In 2017, more rosuvastatin (20mg) was donated for patients with acute myocardial infarction with hyperlipidemia (adaptation disease). In 2018, the program won the 10th “China Charity Award” awarded by the Ministry of Civil Affairs. In 2020, in order to minimize the risk of major adverse cardiac events (MACEs) after percutaneous coronary intervention (PCI) surgery of AMI patients, and strengthen the antiplatelet therapy during hospitalization, based on the “Rescue the Heart with a Packet of Medicine” Program, the program explored the “Hospitalization with a Packet of Medicine” mode and extended the period of funding to cover the hospitalization.

The key to the treatment of AMI is to initiate dual antiplatelet therapy (DAPT) as early as possible to minimize the early treatment time. The “Rescue the Heart with a Packet of Medicine” Program has optimized the rescue and treatment process of AMI patients and truly turned “patients waiting for medicine” into “medicine waiting for patients” so that the patients can take the medicine in the first time, which has greatly saved the precious treatment time.

In February 2022, because the donated medicines involved in the project are basically available in the hospital, the first aid pack of medicines project stopped the medicine assistance. As of January 2022, the emergency one-pack drug project (emergency segment + inpatient segment) has accumulatively passed through 5,383 hospitals across the country, benefiting 2.73 million patients with myocardial infarction and covering nearly 250,000 project doctors.

In April 2022, in order to help prevent and control the epidemic, the First Aid Pack of Medicine Project distributed epidemic prevention boxes to Shanghai, Jiangsu and other places, directly benefiting 1,800 people.

四、注册会计师对财务报表审计的责任

我们的目标是对财务报表整体是否不存在由于舞弊或错误导致的重大错报获取合理保证，并出具包含审计意见的审计报告。合理保证是高水平的保证，但并不能保证按照审计准则执行的审计在某一重大错报存在时总能发现。错报可能由于舞弊或错误导致，如果合理预期错报单独或汇总起来可能影响财务报表使用者依据财务报表作出的经济决策，则通常认为错报是重大的。

在按照审计准则执行审计工作的过程中，我们运用职业判断，并保持职业怀疑。同时，我们也执行以下工作：

（1）识别和评估由于舞弊或错误导致的财务报表重大错报风险，设计和实施审计程序以应对这些风险，并获取充分、适当的审计证据，作为发表审计意见的基础。由于舞弊可能涉及串通、伪造、故意遗漏、虚假陈述或凌驾于内部控制之上，未能发现由于舞弊导致的重大错报的风险高于未能发现由于错误导致的重大错报的风险。

（2）了解与审计相关的内部控制，以设计恰当的审计程序，但目的并非对内部控制的有效性发表意见。

（3）评价管理层选用会计政策的恰当性和作出会计估计及相关披露的合理性。

（4）对管理层使用持续运营假设的恰当性得出结论。同时，根据获取的审计证据，就可能导致对中国红十字基金会持续经营能力产生重大疑虑的事项或情况是否存在重大不确定性得出结论。如果我们得出结论认为存在重大不确定性，审计准则要求我们在审计报告中提请报表使用者注意财务报表中的相关披露；如果披露不充分，我们应当发表非无保留意见。我们的结论基于截至审计报告日可获得的信息。然而，未来的事项或情况可能导致中国红十字基金会不能持续运营。

（5）评价财务报表的总体列报、结构和内容（包括披露），并评价财务报表是否公允反映相关交易和事项。

我们与治理层就计划的审计范围、时间安排和重大审计发现等事项进行沟通，包括沟通我们在审计中识别出的值得关注的内部控制缺陷。
